

Community Relations

Responsibilities of School Personnel

Employees should be aware that they are representatives of the school system by virtue of their employment, and, as such, influence the public image of the school system.

As representatives of the school system they should place a positive and factual light on all school system matters.

The Board of Education encourages staff members to become active participants in the activities of the community in which they live so long as these activities do not interfere with their responsibilities as school district employees. This involvement provides a community with better understanding of educational programs and gains support of better education for every student. Such activity, however, is not required for initial or continued employment or advancement.
