Goals/Objectives for Student Accomplishment

The Board of Education recognizes the need to establish goals and objectives that guide the direction of student accomplishment. The goals and objectives set forth below provide, in general terms, this guidance. The Board will ensure that curriculum guides that define the appropriate goals and objectives in more measurable terms are established, maintained and periodically reviewed.

Cross-Reference to Mission Statement (Policy 0000)

Goal - Mastery of the Basic Skills

Proficiency in the basic skills is essential for acquiring knowledge and for success in our society. Therefore, students will, to their full potential, learn to communicate effectively in speech and writing; read with understanding, acquire knowledge of and ability in mathematics, and strengthen decision-making skills.

Objective:

1. Students will, to their full potential, learn to communicate effectively through writing, speaking and listening.
2. Students will, to their full potential, be able to read with understanding.
3. Students will, to their full potential, be able to perform the basic mathematical computation skills and be able to solve everyday mathematical problems.

Goal - Acquisition of Knowledge

Acquiring knowledge leads to fuller realization of individual potential and contributes to responsible citizenship. Therefore, students will acquire knowledge of science, mathematics, social studies, technology, the arts, literature and languages which leads to an understanding and appreciation of the values and the intellectual and artistic achievements of their culture and other cultures; and will take full advantage of opportunities to explore, develop and express their own uniqueness and creativity.

Objective:

Students will acquire the knowledge of science, mathematics, social studies, the arts, literature and languages which leads to an understanding and appreciation of the values and the intellectual and artistic achievements of their culture and other cultures; and will take full advantage of opportunities to explore, develop and express their own uniqueness and creativity.

Mission - Goals - Objectives**Goals/Objectives for Student Accomplishment** (continued)**Goal - Motivation to Learn**

To realize their potential to learn, students must be highly motivated. Therefore, students will develop strong motivation by responding to the high expectations of their parents, teachers and school administrators; by understanding and striving to fulfill personal aspirations, and by developing the positive feelings of self-worth which contribute to responsible behavior and personal growth, health and safety.

Objective:

Students will develop strong motivation by responding to the high expectations of their parents, teachers and school administrators by understanding and striving to fulfill personal aspirations, and by developing the positive feelings of self-worth which contribute to responsible behavior and personal growth, health and safety.

Goal - Competence In Life Skills

Students are challenged to function successfully in multiple roles as citizens, family members, parents, producers and consumers. Therefore, students who complete secondary level studies will have the ability to make informed career choices; understand the responsibilities of family membership and parenthood; be prepared to undertake the responsibilities of citizenship in their communities, in the state, in the nation and in the world; and have the skills, knowledge and competence required for success in meaningful employment or be qualified to enter post-secondary education.

Objective

Students who complete secondary-level studies will have the ability to make informed career choices; understand the responsibilities of family membership and parenthood; be prepared to undertake the responsibilities of citizenship in their communities, in the state, in the nation and in the world; and have the skills, knowledge and competence required for success in meaningful employment or be qualified to enter post-secondary education.

Goals/Objectives for Student Accomplishment (continued)

Goal - Understanding Society's Values

To be responsible citizens and contribute to positive change, students must understand and respect the underlying values of their society. Therefore, students will appreciate diversity and understand the inherent strengths in a pluralistic society; they will understand and respond to the vital need for order under law; they will acquire the knowledge necessary to live in harmony with the environment, and actively practice conservation of natural resources; and they will respect the humanity they share with other people.

Objective

Students will appreciate diversity and understand the inherent strengths in a pluralistic society; they will understand and respond to the vital need for order under law; they will acquire the knowledge necessary to live in harmony with the environment, and actively practice conservation of natural resources; and they will respect the humanity they share with other people.
