

## **Mission-Goals-Objectives**

### **Monitoring and Reporting**

The Board of Education will monitor progress toward meeting its goals through state mandated testing programs as well as any additional programs that the Board feels can enhance its ability to assess student needs and determine student achievement. The results of this monitoring shall be reported in a manner appropriate for each program.

In addition, the Board will monitor the school system's performance against the annual plan for improvement which contains the goals and objectives for school operations. The administration will present a summary of progress toward meeting the goals and objectives at a Board of Education meeting in the fall.
